FIG. 5

FIG. 6A

Methods	Phase	Master	Slave (1)	Slave (2)
Startup	1	Allocate Global Var	Create/Connect an SQL session	Create/Connect an SQL session
		Create/Connect an SQL session	NextPhase	NextPhase
		NextPhase		
	2	Create/Connect Fastload session(s)	Create/Connect Fastload session(s)	Create/Connect Fastload session(s)
		NextPhase	EndMethod	EndMethod
	3	Issue 'Begin Loading'		
		EndMethod		
Execute	1	Read a record from a data source	Read a record from a data source	Read a record from a data source
		IF End-Of-Data NextPhase ELSE SamePhase	IF End-Of-Data NextPhase ELSE SamePhase	IF End-Of-Data NextPhase ELSE SamePhase
	2	Issue 'End Loading' (if specified by the user)		
		EndMethod		
Checkpoint	1	Write statistics to Global Var	Write statistics to Global Var	Write statistics to Global Var
		NextPhase	EndMethod	EndMethod
	2	Write checkpoint record(s) to the LOG		
		EndMethod		

FIG. 6B

Methods	Phase	Master	Slave (1)	Slave (2)
Restart	1	Process checkpoint records	Process checkpoint records	Process checkpoint records
		NextPhase	EndMethod	EndMethod
	2	Write a restart record to the LOG to indicate EndOfRestart		
		EndMethod		
Terminate	1	Disconnect Fastload session(s)	Disconnect Fastload session(s)	Disconnect Fastload session(s)
		NextPhase	NextPhase	NextPhase
	2	Disconnect SQL session	Disconnect SQL session	Disconnect SQL session
		Deallocate Global Var	EndMethod	EndMethod
		EndMethod
